OUR SERVICES

Welcome to Trust Charitos Hospital, the premier healthcare institution in Abuja, renowned for its professionalism, effectiveness, and patient-centered approach to delivering top-notch medical services. Our highly experienced medical professionals are dedicated to providing personalized care, ensuring that every patient receives the best possible treatment tailored to their unique needs. We pride ourselves on our state-of-the-art facilities, cutting-edge technology, and unwavering commitment to excellence. At Trust Charitos, patient satisfaction and quality healthcare are at the core of everything we do, making us the best hospital in Abuja for comprehensive, compassionate, and reliable healthcare services

BARIATRIC & LAPAROSCOPIC SURGERY

Bariatric Surgery is a surgery performed for weight loss on people suffering from obesity. This is a weight loss procedure and is also known as weight loss surgery. Obesity has adverse health effects and is considered a serious medical condition and hence the need to be treated. Diabetes, high blood pressure, cardiovascular diseases, obstructive sleep apnea, etc are some of the medical issues associated with obesity. The surgery helps in restricting food intake and reduces food absorption from stomach and intestine. Thus, overall body weight reduction is achieved and helps improve associated medical disorders that result from excess body weight.

GENERAL SURGERY

Trust Charitos Hospital Abuja, which is a centre of excellence for various surgical procedures, uses the latest and best techniques & technology. The general surgery department often collaborates with other departments to do surgeries that need more than one kind of specialists. General surgeons work with specialists in-

- Hepato-biliary
- Pancreatic and colorectal surgery
- Venaes and arterial surgery
- Breast and endocrine surgery

and many more in other to achieve the best possible outcome for our esteem clients and patients.

PEDIATRICS

Our Paediatric Department is made up of experienced, dedicated and supportive staff including paediatricians, paediatric registrars, paediatric neurologists, neurology registrars, surgical registrars, residents, dietitians, psychiatrists, teachers, neuropsychologists and nursing staff.

Our ward is colourful, fully furnished, accommodative and a friendly atmosphere that give sense of home from home kind of feeling, we have a playroom full of games, toys and books, if your child ever needs to stay overnight in hospital.

OBS/GYNAECOLOGY

The department of Gynaecology at Trust Charitos Hospital Abuja is managed by seasoned professional and dedicated staffs in the field of women's health. It is facilitated by both male and female consultants, who will address your concerns with both sensitivity and discretion.

We are able to provide you with excellent care at your convenience by offering a wide array of appointments to fit with your schedule. We offer an extensive range of investigative tests and procedures for diagnosis when required, as well as a comprehensive range of medical and surgical therapeutic services at our own state-of-the-art facilities. Whatever your gynaecological problem, we aim to ensure that your experience here at Trust Charitos Hospital Abuja is both seamless and convenient and that our experts will be ready to answer any questions you might have along the way.

UROLOGY

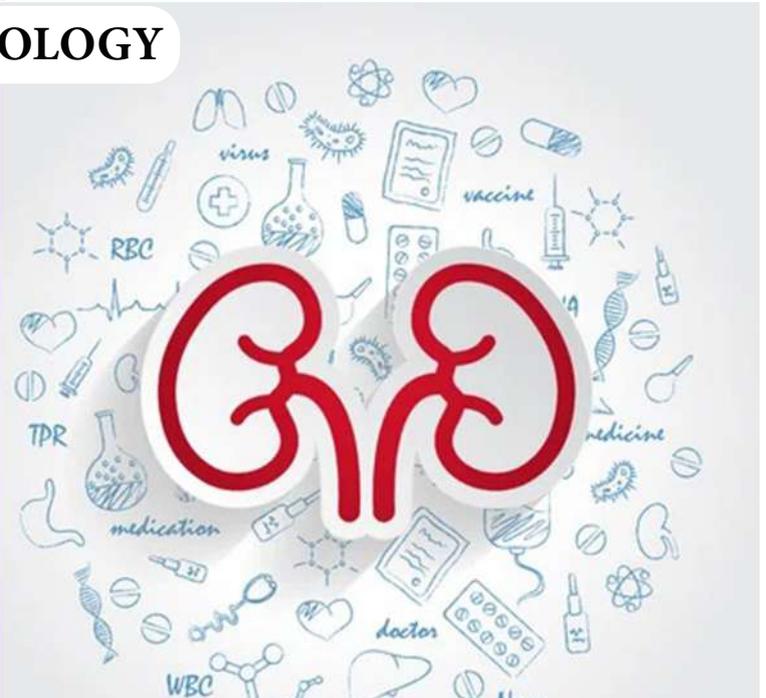

At Trust Charitos Hospital Abuja, Our Urologist are dedicated to providing Comprehensive Urological Care using modern and advance procedures for both Men and Women of All Ages.

We understand that sometimes Urological problems can be particularly sensitive or difficult to talk about, and we aim to keep your needs at the centre of your care. Our top consultants are dedicated to treating patients with a wide range of symptoms and offer a holistic approach to their treatment plans, ensuring you get both their expertise and support throughout.

NEPHROLOGY

At Trust Charitos Hospital Abuja, we offer comprehensive care to patients suffering from various kidney complications. With a professional team of doctors using some of the advanced facilities and treatment options for patients, we provide some of the best treatment in Nigeria. The Nephrology experts at Trust Charitos Hospital Abuja, consistently invest time, effort, and expertise to help people maintain their kidney health through various non-invasive procedures.

Our team of experienced Nephrologists is acclaimed for its rare clinical skills and for providing top-notch treatment to all classes of people ranging from children to adults.

4D ULTRASOUND

4D ultrasound generates detailed images, letting you see the baby's features in detail. Parents are often keen to see their babies inside the womb as they wait to hold them. A 4D ultrasound scan shows the live video of your baby, and you may be able to watch them smiling or yawning inside the womb.

Doctors recommend various scans and tests during pregnancy to ensure the wellbeing of both the mother and baby. Some of these tests are mandatory, while a few are optional. For example, the 4D ultrasound is an optional scan since a 3D ultrasound usually suffices to evaluate the baby. Unfortunately, it is illegal in some countries due to various reasons.

FAMILY MEDICINE

As one of the leading hospitals in Abuja, we at Trust Charitos Hospital Abuja know how family dynamics can affect each member's health and overall well-being. We address the physical, emotional, mental, and social needs of children, adolescents, adults, and seniors. We also provide comprehensive care to expectant mothers and babies and nurture a comprehensive family healthcare. Family medicine has great scope and it encompasses all ages, genders, organ systems, and diseases. You can always visit the top family medicine hospitals to get a routine health checkup.

E.N.T CLINIC

E.N.T complications affect people's daily routines, activities and Quality of life. More conversely, they can lead to accidents at work or even in the home which is why it is so important to identify and correct these issues as soon as possible.

The E.N.T (Ear, Nose and Throat) clinic at Trust Charitos Hospital Abuja, realizes the importance of the early detection and treatment of hearing and balance disorders, utilizing the latest medical technology and equipment. The clinic aims to improve the quality of life of both children and adults afflicted with a range of diseases and conditions associated with hearing and balance.

This modern and technologically advanced Clinic provides diagnostic and treatment services for diseases and conditions associated with hearing, balance function, and vertigo in both children and adults. Some of the services offered include:

DENTAL CLINIC

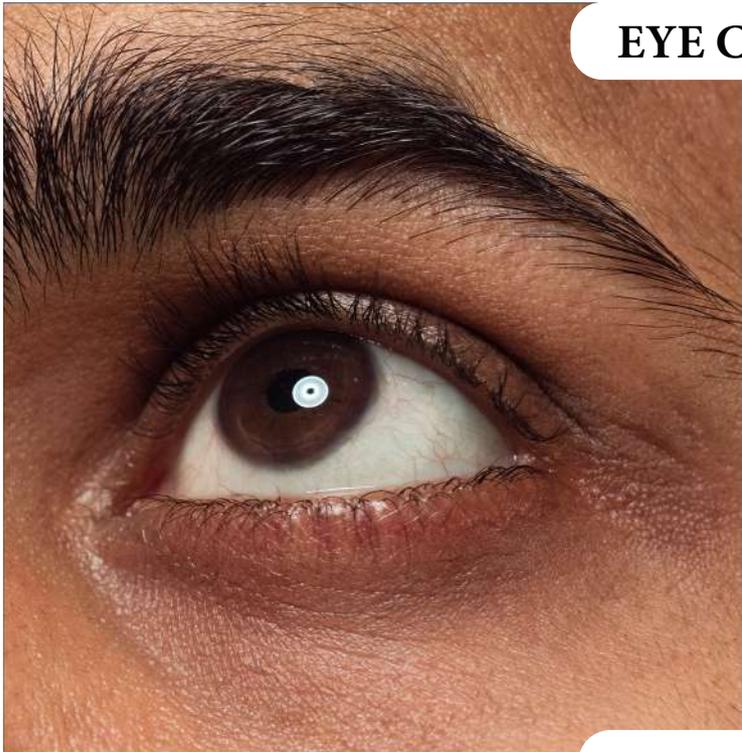

At Trust Charitos Hospital Abuja, We have a team of specialists in every field of Dentistry, Orthodontics, Periodontics, Prosthodontics, and Endodontics. With over 20 year of experience.

At Trust Charitos Hospital Abuja, We have a team of specialists in every field of Dentistry, Orthodontics, Periodontics, Prosthodontics, and Endodontics.

We have a team of specialists in every field of Dentistry, Orthodontics, Periodontics, Prosthodontics, and Endodontics.

Years ago, a physician who suspected heart disease in you probably did not refer you to a gum specialist. Times have changed. The past years have seen increasing links between oral health and body health.

EYE CLINIC

At Trust Charitos Hospital Abuja, we provide medic-care for all facets and stages of eye conditions. We use the latest techniques and therapies to administer routine eye examinations offer various eye related treatments including glaucoma treatment.

Ophthalmology is the branch of medicine that deals with the anatomy, physiology and diseases of the eye. An ophthalmologist is a specialist in medical and surgical eye problems. Ophthalmology includes sub-specialities which deal either with certain diseases or diseases of certain parts of the eye.

PHARMACY

At Trust Charitos Hospital Abuja, Our Pharmacy is available to provide the drugs and drug information needed by the patients and other members of the health care team. The pharmacy is open 24 hours a day 7 days a week.

The Pharmacy Department is positioned to provide optimal drug therapy to all categories of patients in the hospital. The department ensures that the highest quality and most cost-effective pharmaceutical care and leadership in the medication use system is achieved within the limits of human and capital resources. Pharmaceutical care services include offering counsel to patients and working closely with other healthcare professionals to ensure that the most appropriate therapeutic treatment is being delivered. The department monitors and provides information on potential side effects and checks that prescribed medicines are compatible with existing medications.

ORTHOPEDIC

At Trust Charitos Hospital Abuja, our orthopedics are recognized and highly respected within their peers in the medical circle for their surgical excellence and innovative abilities to solve both simple and complex orthopedic problems. At Trust Charitos Hospital Abuja, our team of orthopedic surgery experts uses the latest techniques and technology to improve care for people with musculoskeletal problems. From diagnosis through treatment, we employ advanced techniques and technologies in the best interest of the patients. We use minimally invasive procedures whenever possible to reduce pain and speed recovery. Before and after surgery, assistance from physician specialists trained in internal medicine, radiology, physical medicine and rehabilitation, and other medical and surgical areas help speed recovery for our surgical patients.

ENDOSCOPY

Endoscopy is a medical procedure that allows a doctor to observe the inside of the body without performing major surgery using an instrument called an endoscope. An endoscope is a long, thin, flexible tube that has a light and camera at one end. Images of the inside of your body are shown on a television screen. The end with the lens is inserted into the patient. Light passes down the tube (via bundles of optical fibres) to illuminate the relevant area, and the video camera magnifies the area and projects it to a television screen so the doctor can see what is there. Usually, an endoscope is inserted through one of the body's natural openings, such as the mouth, urethra, or anus. Specially designed endoscopes are used to perform simple surgical procedures,

DIGITAL X-RAY

At Trust Charitos Hospital Abuja, we offer a range of services including digital radiology. Digital radiography is a form of radiography that uses X-ray sensitive plates to directly capture data during the patient examination, immediately transferring it to a computer system without the use of an intermediate cassette. Advantages include time efficiency through bypassing chemical processing and the ability to digitally transfer and enhance images. Also, less radiation can be used to produce an image of similar contrast to conventional radiography.

LABORATORY

Our Laboratory at Trust Charitos Hospital Abuja, is one of the most efficient laboratories setups you can find around. With well-equipped and a state-of-the-art auto analyzer with lab interfacing and integrated system for analysis of patient's samples. We have a multitude of specialty departments catering to both routine and special diagnostic requirements of the hospital.

At Trust Charitos Hospital Abuja, we strive to deliver high-quality and affordable laboratory diagnostic and consultative services that are crucial to outstanding patient care.
